

Enhancements to CaRMS Interview Communications System

Presented to PGMEAC,
October 25, 2019

Recent CaRMS Enhancements

Program Descriptions

- New features to identify criteria for file review
- New features to identify criteria for interviews
- Informed by BPAS

Interview Communications:

- On-line notification of interview status for applicants

Interview Notification

Problem:

- The process of email-only invitation communication has an inherent potential for uncertainty and risk – with observed instances of failure

New Feature

Communicate to applicants as early as possible whether or not they will be offered an interview.

Programs provide an interview status for all applicants.
Each applicant should be:

 'Selected' for interview

Or

 'Not Selected' for interview

Interview Communications

The purpose of the Interview Communications functionality within CaRMS Online is to provide early and clear communications to applicants about whether or not they should be expecting an interview invitation for all programs to which they have applied. Each program is encouraged to update CaRMS Online with their decisions regarding offering interviews as early as possible.

This page provides a summary of the information for all programs an individual has access to. To view and update the details for a particular program – click on the row in the table.

Interview Offer Status

Here you'll find your current interview offer status with all the programs you've applied to.

The 'Interview Offer' column displays a status selected by the program. If a program has indicated that you have been 'Selected' for interview and you have not received an emailed offer within a few days, please contact the program directly.

All interview scheduling and details will be communicated to you directly by programs via email. Any issues or requested changes must be directed to them. For more information see our [Knowledge Center](#).

Interview notification frequency

Never

- Options:**
- Immediately
 - Daily
 - Never
