1 Confirm feedback readiness	"I've been working on X; could I ask you for your tips around this?"
2 Determine the type of feedback required	<p>Reassurance: "So, how did I do?"</p> <p>Benchmarking: "Am I on track for someone at my level of training?"</p> <p>Improvement: "I've been working on X. Any tips on how I can improve?"</p>
3 Feedback needs time and space	"Will you have time in X, or at Y, to give me some feedback? If not, when and where works best for you?"
4 Label as feedback	"After X, could I get some feedback?"
5 Stick to the facts	"My observation of the patient's response was X, so I did Y."
6 Engage in reflection	"Looking back on X task, skill or procedure, my perceptions were Y."
7 Coach for improvement	"Any tips on how to do X better?"
8 Plan actionable next steps	"I'm going to work on X and Y. Can I check in with you if I have questions about that at Y time?"
