

***THE PRE-ENTRY ASSESSMENT PROGRAM (PEAP) for
CLINICAL FELLOWS
FINAL PEAP ASSESSMENT FORM***

The PEAP for **Clinical Fellows** is an assessment process that evaluates certified international medical graduates to determine whether they can function at the level of Ontario residents who have completed their specialty training and are qualified to enter an Ontario clinical fellowship program. The final PEAP assessment form must be used by programs to complete the assessment of the learner. The final PEAP assessment form is to be completed at the end of the scheduled PEAP period (4 – 12 weeks).

The PEAP process allows for appropriate, supervised clinical activity. A PEAP learner is assessed in a multidisciplinary environment where there is patient input on an ongoing basis. The PEAP must meet the following criteria:

- a) Be a minimum of four (4) weeks to a maximum of twelve (12) weeks in duration.
- b) Be completed at an Ontario medical school.
- c) Provide assessment of the learner's general knowledge and competency in the specialty in which they are certified, appropriate for the practice in the discipline in which the learner is entering clinical fellowship training.
- d) Provide assessment in respect of whether the learner is:
 - Mentally competent to practice medicine;
 - Able to practice with decency, integrity, and honesty and in accordance with the law;
 - Possessing sufficient knowledge, skill, and judgment to engage in postgraduate medical training as authorized by the educational license; and
 - Able to communicate effectively and display an appropriate professional attitude.

SECTION 1 [TO BE COMPLETED BY THE PROGRAM]

AS A REMINDER: Enrolment in the PEAP can begin only after the College of Physicians and Surgeons of Ontario (CPSO) has issued a PEAP certificate of licensure and the learner has registered with the Postgraduate Medical Education (PGME) office. It is an offence under the Regulated Health Professions Act for a person to practice medicine in Ontario until they are registered and authorized by the CPSO.
