

GH Education Sub-ctte

Goals:

- 1. Coordination of activities and sharing best-practices relating to post-graduate trainees in the areas of global health.
- 2. Drafting policy and developing infrastructure to support global health *electives* and *experiences*.
- 3. Develop and implement and/or monitor pre-departure training for post-graduate trainees of all departments.
 - GH Day – Spring 2014

Guidelines

for educationally and ethically sound

Global Health Experiences

in Postgraduate Medical Education

Application of Guidelines

- International global health elective
 - Not local GH – vuln/marg & aboriginal
 - ?? observerships, educational, public health
- Complements, but does not replace, existing departmental guidelines

GHE Guidelines Elements

- Registration and Logistics
- Educational Integrity and Supervision
- Ethics
- Health and Safety
- Pre-Departure Preparation/Post-Travel Debriefing
 - [1. Safety Abroad; 2. General GH; 3. Specialty specific; 4. PGY specific; 5. Mission specific]

Next Steps

- Revise guidelines based on PGMEAC feedback
- Consult international partners
- Survey for Global Health Day
- Developing PDT Framework
- Judy Kopelow, Manager, Global Health Programs and Initiatives

- **Progressive realization approach, evergreen guidelines?
