

# MD Program Education Goals

The MD Program aspires to prepare graduates who are:

clinically competent and prepared for life-long learning through the phases of their career

ethical decision-makers dedicated to acting in accordance with the highest standards of professionalism

adaptive in response to the needs of patients and communities from diverse and varied populations

engaged in integrated, team-based care in which patient needs are addressed in an equitable, individualized and holistic manner

reflective and able to act in the face of novelty, ambiguity and complexity

resilient and mindful of their well-being and that of their colleagues

capable of and committed to evidence informed practices and scholarship, and a culture of continuous performance improvement
