

Review of PGY1 and MSM Quotas for 2019-20

PGMEAC

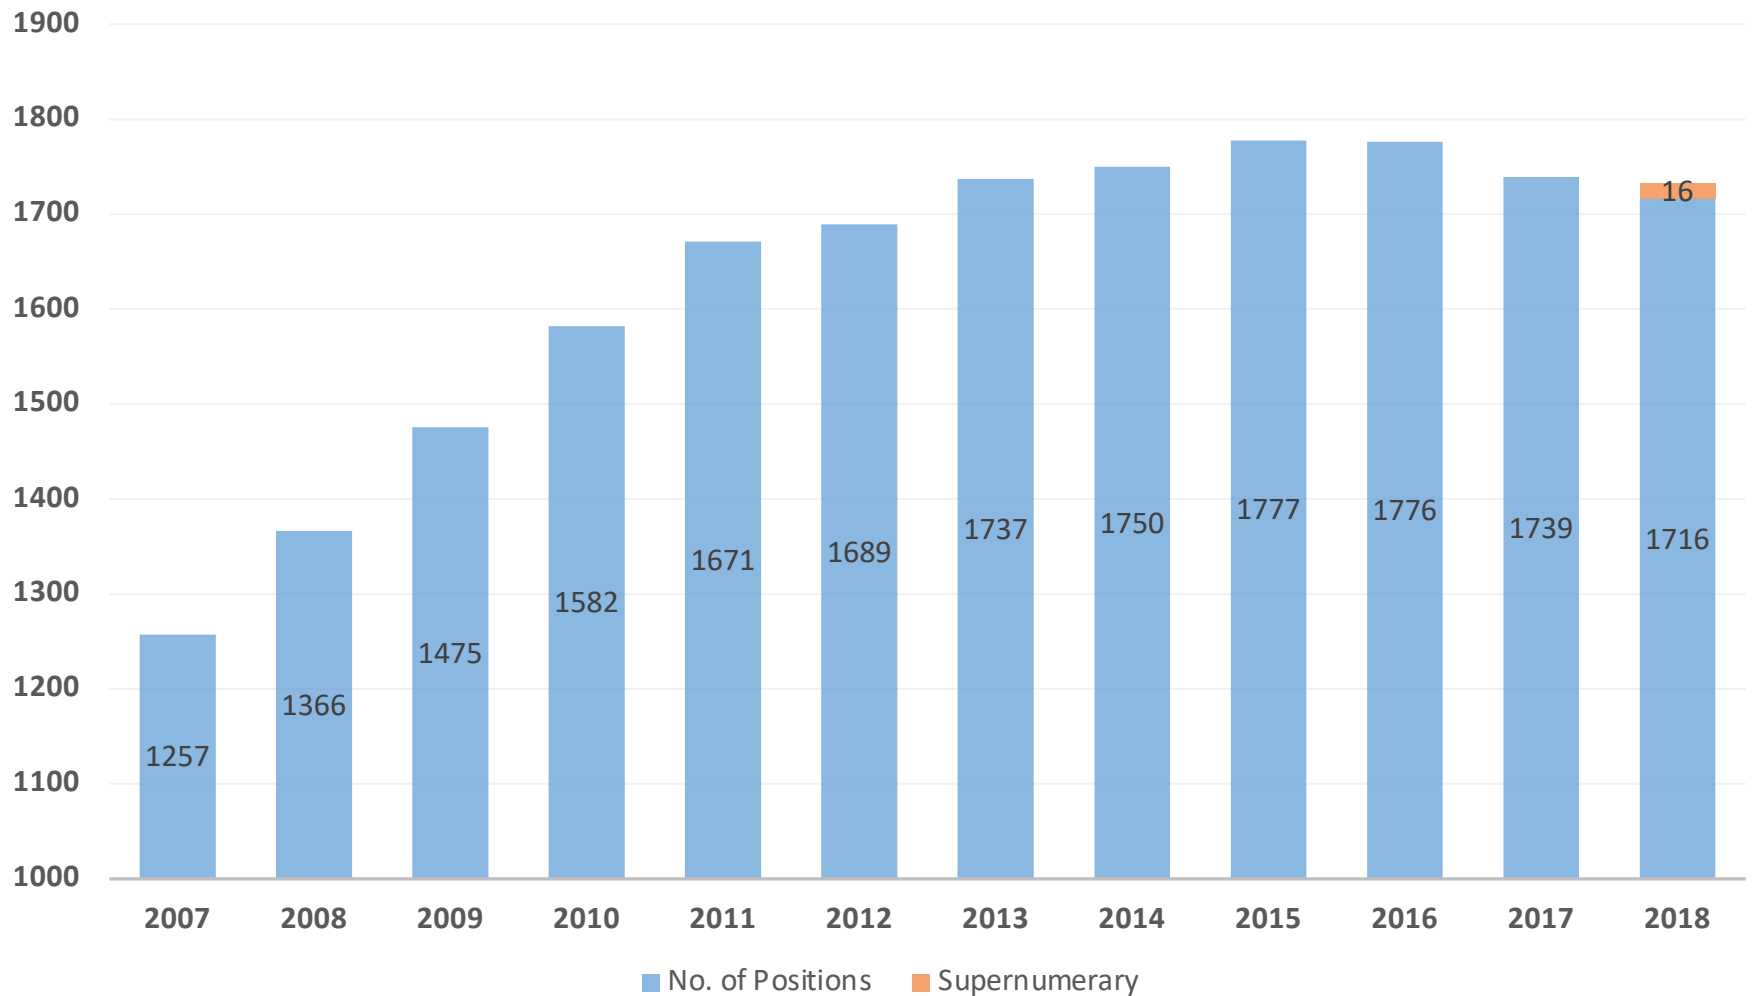

September 21, 2018

Context for 2019-20

- To date, **25 PGY1 residency** cuts in Ontario for **CMGs** continuing in 2018 – U of T share is **9**. In 2019 – there are 986 provincially and 337 at U of T.
- No changes to **IMG** positions – 200 PGY1 provincially and 70 at U of T
- **Unmatched CMGs** – AFMC report released Feb 2017. Province provided 53 opportunities with RoS. 16 filled at U of T and 33 across Ontario.
- Considerations for 2019-20 PGY1 Allocations
 - Re-allocation of 9 PGY 1 residency cuts are based on a **2015 baseline** of quota allocations (before the reductions)
 - We are now in the **fourth year** of reductions
 - The MOHLTC has not yet updated its **needs-based model** for physician planning to guide decisions
 - Reductions are being **rotated** to minimize negative impact on programs, opportunities for medical students and service considerations and reviewed in provincial context
 - Quota reductions are mitigated through CaRMS **reversions, opportunities for sponsored residents, transfers and re-entry**

MOHLTC Funded PGY FTEs at U of T: 2007 - 2018

PGY1 Positions

- Quota Allocations survey of all PDs conducted in Spring 2018 to assess requests and identify current information on supply and demand.
- QA Subcommittee met July 3rd to review requests and consider allocation scenarios:
 - CMGs – **Psychiatry, Medical Genetics, Internal Med** and **Pediatrics** requested **increases**
 - IMGs – **Cardiac Surgery** and **Internal Medicine** requested **increases**. **PMR** requested **decrease**
- Proposed 2019 quotas compared to 2018:
 - **CMG increases**: Anesthesia, Plastics, IM, Med Gen, Adult Neurology, Psychiatry, Public Health
 - **CMG decreases**: FM, Diag Rad, Neurosurgery, Lab Med, PMR and Rad Onc
 - **IMGs**: **increases** in **Cardiac Surg** and **IM**, **decreases** in **Neurology** and **PMR**
