

Teacher Effectiveness Score Report Enhancement – April 2021

The POWER Helpdesk is delighted to inform you that the POWER Teachers Effectiveness Score (TES) report has been enhanced to merge more training sessions to generate TES reports. Currently the report only combined TES results for the last 2 or 3 training sessions. The TES reports merge function now includes the following options to select from: **Merge Last 25, 20, 15, 10, 5, 3, 2** Training Sessions (see screen shot below). The system will generate a TES report for the years that the teacher has completed teaching evaluations, within the training sessions merged. Please be reminded that the reports are based on the teaching evaluation form used, therefore only the same evaluation forms will be combined to form a TES report, so you may see different TES reports generated over the past training sessions.

The screenshot shows the 'Teacher Effectiveness Score' report interface. The 'Training Session' dropdown menu is open, displaying options: Merge Last 25, Merge Last 20, Merge Last 15, Merge Last 10, Merge Last 5, Merge Last 3, and Merge Last 2. The report title is 'Teacher Effectiveness Score' and the evaluation period is 'July 2003 - June 2021'. The report content includes 'Evaluation of Teaching Performance' with a table of scores for various teaching questions.

		1	2
		Never or Very Poor	Occasionally or Needs Improvement
1	Approachability	Teacher - % 0.00%	0.00%
	Teaching Location(s) - %	0.49%	0.49%
	All Teaching Locations - %	0.80%	0.96%
2	Ability to chair rounds	Teacher - % 0.00%	0.00%
	Teaching Location(s) - %	0.49%	0.49%
	All Teaching Locations - %	0.48%	0.64%
3	Ability to teach patient management	Teacher - % 0.00%	0.49%
	Teaching Location(s) - %	0.48%	1.20%
	All Teaching Locations - %	0.48%	1.20%
Global Question		1	2
		Terrible Learning Experience	Unpleasant Experience
	Teacher - %	0.00%	0.00%

This enhancement of merged options is also available to your teachers should you grant them access to view their TES reports via their POWER account. Providing teachers TES access is managed via your **Manage Rotations - Settings** screen.

This enhancement will give teachers a better chance to generate a TES report where they do not have enough results within two or three training session years. In addition, the enhancement will also allow teachers to generate their own TES reports for purposes of their promotions or performance meetings.

Should you have any questions/concerns with the above then please let us know.

The TES reporting function will be covered in more detail in the upcoming POWER Training sessions.
