
International Residents and Fellows Arriving in Canada

Updated August 2021

The Temerty Faculty of Medicine at the University of Toronto and the Toronto Academic Health Science Network are deferring to the Government of Canada [COVID-19: Travel, testing, quarantine and border](#) directives for all international trainees arriving in Canada on or after July 16, 2021.

Learners are responsible for the following upon arrival:

- **fully understand and adhere to the Government of Canada guidelines upon arrival.**
- **adhere to any site-specific guidelines prior to commencing any in-person clinical work.**
- **prepared to cover all costs associated with any planned or unplanned quarantine period upon arrival.**

Please consult the following resources from the Government of Canada before planning your trip so you fully understand your responsibilities upon arrival:

- [To find out if you can enter Canada](#)
- [COVID-19: vaccinated travellers entering Canada](#)
- [COVID-19: Assess your quarantine plan](#)

Should you have additional questions about travelling to Canada, please refer to the following resource:
